

# Easy to separate

Never leave  
without it.

## Separable cable glands

The separable cable gland allows easy and quick installation, for example, of pre-terminated cables with connectors. In an existing installation, a missing or defective cable gland can be replaced or supplemented without dismantling and interruption.

For repairs,  
retroinstallation or  
preterminated  
cables

High sealability

PC Polycarbonate

price/pc.

The various sealing inserts provide the option to seal cables of 7 to 20.5 mm, depending on the selected sealing insert. The spreading pliers are an ideal aid and can be used to open the sealing insert. Insertion of the individual cables becomes easy and quick.

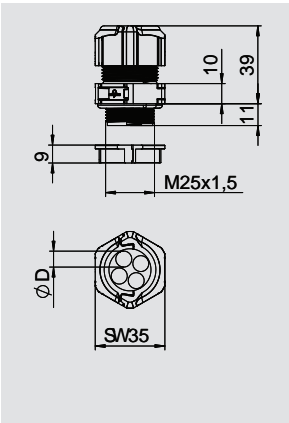

Separable cable gland, sealing insert, multiple cables

Type	Thread	Number of drill holes	Dimension D mm	Colour		Pack	Weight	Item no.
						Units	kg/100 pc.	
2024 92 8	M25 x 1.5	3	9	Light grey		5	2.64	2024 92 8
2024 93 1	M25 x 1.5	4	8	Light grey		5	2.95	2024 93 1

PC Polycarbonate

price/pc.

When using a multiple sealing insert, several cables can be routed and sealed through a gland. Non-required drill holes have to be closed with a plug. The spreading pliers are an ideal aid and can be used to open the sealing insert. Further multiple sealing inserts upon request.

Spreading pliers for sealing insert

Type		Pack	Weight	Item no.
		Units	kg/100 pc.	
V-TEC TBZ		1	26.00	2024 90 0

price/pc.

The spreading pliers are an ideal aid and can be used to open the sealing insert. Insertion of the individual cables becomes easy and quick. Place the cable into the spreading pliers, insert the spreading pliers into the seal separation and then open them. Now the cable can easily be placed into the seal.
